

# SURVIVE and THRIVE

Transforming care for every  
small and sick newborn

## WHY THIS REPORT?

- **Urgency:** A decade to meet SDG targets, and those for every newborn to survive and thrive are off track, maybe more so after COVID-19 pandemic. Some countries may not meet SDG 3.2 target until a century too late.
- **UHC:** Small & sick newborns are our most vulnerable citizens and their care is a key part of UHC. Every country can do more.
- **Opportunity:** 94 authors from every continent (except Antarctica!) have been involved, showing wide commitment to this issue.

**Chapter 1:** Now is the time to transform care for newborns

**Chapter 2:** What the numbers say

**Chapter 3:** Deliver the care they are entitled to

**Chapter 4:** Ensure they thrive

**Chapter 5:** Use data for action

**NOW!**

**Chapter 6:** Immediate action is needed

# AGENDA – Session 2

Facilitator: **Dr. Gagan Gupta, Health Specialist, UNICEF**

- Introduction to the webinar series and the speakers – **Dr. Gagan Gupta, UNICEF**
- Key findings of ‘Use data for action’, Chapter 5 of the *Survive and Thrive* report – **Dr. Louise Tina Day, paediatrician/obstetrician and Assistant Professor London School of Hygiene and Tropical Medicine**
- Using data for accountability and action in a network of Sick Newborn Care Units in India – **Dr. Gagan Gupta, Health Specialist, UNICEF**
- Namibia’s use of a Maternal and Perinatal Death Surveillance and Response system to help reduce preventable newborn deaths – **Dr. Alexander Manu, Senior Clinical Research Associate at the Centre for Maternal and Newborn Health, Liverpool School of Tropical Medicine**
- Data to measure the indirect effects of COVID-19 on newborns – **Dr. Ornella Lincetto, Senior Medical Officer, World Health Organization**
- Questions and answers
- Closing and next webinar

**Dr. Louise Tina Day**

**Dr. Gagan Gupta**

**Dr. Alexander Manu**

**Dr. Ornella Lincetto**
