

SURVIVE and THRIVE

Transforming care for every
small and sick newborn

WHY THIS REPORT?

- **Urgency:** A decade to meet SDG targets, and those for every newborn to survive and thrive are off track, maybe more so after COVID-19 pandemic. Some countries may not meet SDG 3.2 target until a century too late.
- **UHC:** Small & sick newborns are our most vulnerable citizens and their care is a key part of UHC. Every country can do more.
- **Opportunity:** 94 authors from every continent (except Antarctica!) have been involved, showing wide commitment to this issue.

Chapter 1: Now is the time to transform care for newborns

Chapter 2: What the numbers say

Chapter 3: Deliver the care they are entitled to

Chapter 4: Ensure they thrive

Chapter 5: Use data for action

Chapter 6: Immediate action is needed

NOW!

AGENDA – Session 1

Facilitator: Dr. Ornella Lincetto, Senior Medical Officer, World Health Organization

- Introduction to the webinar series and the speakers – Dr. Ornella Lincetto, Senior Medical Officer, World Health Organization
- Key findings of ‘Immediate actions needed’, Chapter 6 of the *Survive and Thrive* report
 - Ms. Judith Robb-McCord, Vice-President, Technical Leadership and Support at PCI, a Global Communities partner
 - Dr. Victoria Chou, Assistant Scientist in the Department of International Health at the John Hopkins Bloomberg School of Public Health
- Modelling and collecting data on maternal and newborn mortality related to COVID-19 – Dr. Ornella Lincetto, Senior Medical Officer, World Health Organization
- Questions and answers
- Closing and next webinar

Dr. Ornella Lincetto

Ms. Judith Robb-McCord

Dr. Victoria Chou

A poster for a webinar. The top half is blue with white text. The bottom half is a photograph of a smiling woman's face. The text on the poster includes the title 'IMMEDIATE ACTION IS NEEDED', the date 'WEBINAR - 15 JULY 2020', and the times 'TWO SESSIONS: 8 AM GMT & 11 AM GMT'. It also contains a paragraph about saving newborn lives and another paragraph about the importance of data collection. Logos for the World Health Organization and UNICEF are at the bottom.

IMMEDIATE ACTION IS NEEDED

WEBINAR - 15 JULY 2020
TWO SESSIONS: 8 AM GMT & 11 AM GMT

1.7 million newborn lives could be saved each year by investing in quality newborn care; almost half of this impact would result from providing special and intensive hospital care for small and sick newborns. This webinar will present what it takes to close the 'quality of care gap' with special and intensive newborn care, and the steps that must urgently be taken to meet the 2030 SDG targets for enabling newborns to survive, thrive and enjoy the highest attainable standard of health.

Transforming care for every newborn, including those who are small and sick, is everybody's responsibility. The webinar calls on governments, development partners, healthcare professionals, parents and communities to invest, implement, inform and innovate in order to strengthen and invest in care around the time of birth, improve the quality of maternal and newborn care, reduce inequities, harness the power of families and communities and count every small and sick newborn.

The webinar will also address the importance of modelling and collecting data on maternal and newborn mortality related to COVID-19.

There will be time for Q & A.
